# To The Prospective Home Builder

THIS collection of Plans of small houses or Florida Casas is published by the Florida Lumber and Millwork Association for the purpose of stimulating throughout Florida the construction of more beautiful and more distinctive small homes.

In this day and age when inventive powers have been taxed to the utmost and even the past has run dry, homes of distinction, originality and individuality are hard to find. We believe the following homes merit these adjectives and at the same time preserve a very definite dignity.

The essence of good taste today, as ever before, is the discrimination between richness and gaudiness. We have consciously tried to exercise this principle in the selection of the following homes.

These designs are bound to give the builder an idea of less expensive homes of unusual character and charm. To those seeking more expensive homes, we recommend the services of a capable architect.

**"The ALGERITA"**

34 Ft. Wide x 42 Ft. Deep

THE beauty of the "Algerita" is suggested by the picture. Imagine it in a rich creamy stucco topped by a brilliant colored tile roof and you have the whole story. The floor plan tells the story of the interior. Outside walls are hollow tile on which the stucco and plaster is directly applied.

## "The ATHENS"

34 Ft. Wide x 34 Ft. 9 In. Deep

A CHARMING Spanish type with a pleasing tile roof. Four rooms with five room efficiency offering every comfort in a well built small house, with little housework. The living room becomes an airy bedroom at night. Space saving devices in kitchen add greatly to its efficiency. Outside walls are of hollow tile with stucco exterior finish.

## "The AVILLA"

28 Ft. 6 In. Wide x 36 Ft. Deep

A BUNGALOW along the Spanish Lines. A combination of stucco, tile and brick chimney are effectively blended into a handsome monolithic structure. Four rooms with five room efficiency. Here are features that would delight any prospective builder, yet the home is most economical to build. A full size disappearing bed in the living room makes it possible to convert this into a bedroom at night, thus giving the conveniences of an additional room.

## "The BONITA"

32 Ft. Wide x 40 Ft. 8 In. Deep

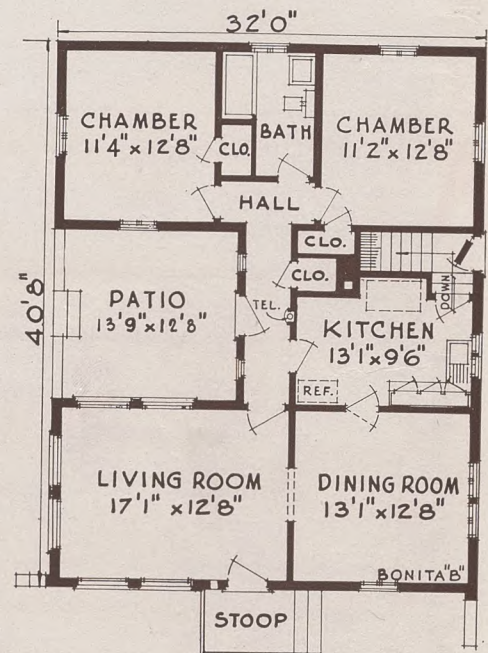

RESPLENDENT in its stuccoed beauty, the "Bonita" marks the culmination of the Italian bungalow style. The creamy whiteness of the stucco capped by the red tile roof makes a most effective picture against the green background. Adapted from one of the Mediterranean villas, it retains all the charm of its original and will help to make Florida another Riviera.

## "The BERROS"

26 Ft. Wide x 46 Ft. Deep

PLAN "A" WITHOUT BASEMENT

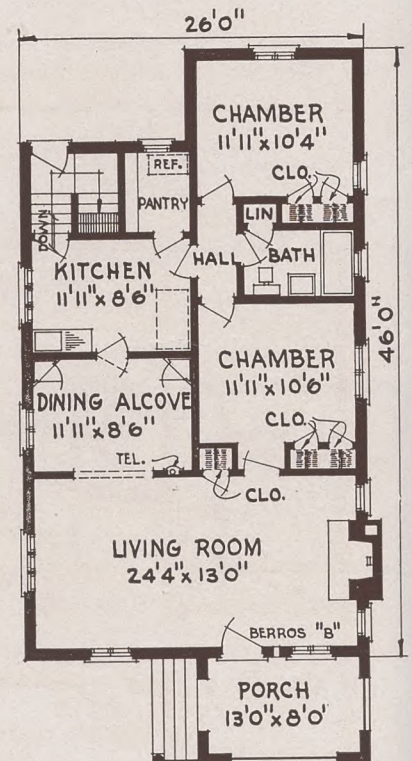

GRACING the sea shore or perched on an inland slope the "Berros" is equally attractive. The mingled effects of the smooth stucco, the bright roof tile and the occasional artistic trim such as the porch railing and Moorish pillar is captivating. Inside we are equally charmed when we become aware of the roominess and excellence of arrangement.

4 Rooms, Bath and Sewing Room

## "The ALTAIR"

34 Ft. 4 In. Wide x 29 Ft. 9 In. Deep

STUCCO, face brick, shingle thatched roof, and half timbered gables have all been carefully blended to produce this beautiful bungalow. Only five rooms yet it offers seven room efficiency. The use of a full

size disappearing bed in the living room transforms this into another bed room at night. Likewise the same arrangement is provided for the sewing room. Space saving devices in the kitchen make it a very efficient and compact work room.

A HOME is many things in one and many things should be considered before making your final decision. First it is a thing of beauty—something to improve the richest natural setting. Second, it is a constant reminder to the outside world of the taste and quality of its occupants. Third it is a place to

live in. After studying the picture and floor plans of the "Beleair" it seems to answer all these qualifications—and satisfactorily.
